

Selway Ranger District List of Rangers

According to Albert N. Cochrell's, *The Nez Perce Story*, this unit probably started out as the O'Hara District. When the change in name was made is not recorded. The original station was built about 1910 on O'Hara Bar opposite O'Hara Creek and continued as the headquarters until about 1940 when the present Fenn Ranger Station was occupied by both the Selway and Middlefork Ranger Districts.

It is pretty well agreed that Sumner Rackliff was among the first Rangers on the Selway River. Where he made his headquarter is not known. The next Ranger of record was James Agnew who likely built the O'Hara station and may have continued until S.I. McPherson took over in 1918.
